Dimensions:	Length 270mm Width 130mm Height 150mm

50 sheets   0–50 mm   CASSETTE   5050 Cassette   **FLAT CLINCH**

Your benefits

- **Stapling performance – staples up to 50 sheets. 5,000 stapling actions per cassette.**

- **Service life – low life-cycle cost; guaranteed for 500,000 stapling operations (worn parts automatically replaced with every fresh cassette).**

- **Flexible – adjustable stapling depth and precise stapling of up to 50 sheets.**

- **Functional – precision stapling due to flat clinch (flat, neat corners).**

- **User-friendly – easy to understand instructions and simple loading. Reload indicator light shows well before staples run out. Green = Ready for Use. Red = Replace Cassette (only 19 or fewer staples left).**

- **Working environment – quiet operation, low vibration.**

Staple cassette simplifies reloading and reduces reloading frequency. Cassette also contains wear parts for increased service life.

The R5050e is an efficient stapler based on new, progressive technology and design.

Easy to load. To remove the empty cassette, just the head guard, take hold of the cassette (see picture) and pull out.

Insert the new cassette (see picture) and push in until it clicks home. Replace the guard. The stapler is now ready for another 5,000 stapling operations.
